

Snap-on HEAVY DUTY Torque Multipliers

18V Cordless, Brushless Kits

The new **CTM** range is designed to offer outstanding performance while minimizing the traditional overheating problem of battery operated tools under the same conditions, the CTM will continue to work while most competitors have to be stopped to cool.

- Secondary "safe-to-start" trigger keeps finger away from pinch points at tool startup; once the tool is running, operator can relocate hands
- Intelligent joint sensing technology measures the joint during tightening & when necessary dynamically brakes to avoid torque over-shoot
- Two-way communication via Bluetooth® or USB streams tool data live or can download up to 3,000 event readings
- Provides torque within ±3% of target; store application results or 12 different users; audit mode performs checks on pre-tightened bolts

Snap-on POW'RENCH™ Manual Impact Wrench, Bi-directional

Operates without hydraulics, compressed air or other power sources

ROTO-SLEDGE™ Power Impact Head Technology converts spring energy into powerful torsional blows. Delivers impact up to 63 times the force applied to handle • Lightweight & portable; operates wherever needed, including under water • Replaces burning, hacking & chiseling; saves man-hours, machine time and downtime • Minimizes the need for operator strength and skill • Replaces breaker bars • Prevents impact "shock" transmission through the handle
